PROFESSIONAL SUMMARY

Computer Science Engineering graduate and Frontend Developer skilled in building responsive, component-driven web applications using modern JavaScript (ES6+), React.js, Material UI, and RESTful APIs. Experienced in engineering Single-Page Applications (SPAs) with modular architectures, client-side routing, and state management. Strong background in technical documentation, quality compliance, and process accuracy, seeking to contribute clean, maintainable code to a software engineering team as a Frontend / React Developer.

TECHNICAL SKILLS

- **Core Frontend:** HTML5 (Semantic), CSS3, JavaScript (ES6+), React.js, React Hooks, JSX, Component-Driven Development
- **UI Frameworks & Styling:** Material UI (MUI), Framer Motion, Responsive Web Design, Flexbox, CSS Grid
- **Routing & Networking:** React Router (v6), RESTful APIs, Fetch API, JSON, Asynchronous JavaScript (Promises, Async/Await)
- **Developer Tools & Practices:** Git, GitHub, Vite, npm, VS Code, Vercel, Cross-Browser Compatibility, Debugging

FRONTEND PROJECTS

Glow & Scent – E-Commerce Candle Web Application **Live: candle-website-mu.vercel.app**
Technologies: React.js, Material UI (MUI), React Hooks, Framer Motion, JavaScript (ES6+), Vite Code: github.com/nanthini23k

- Developed a responsive Single-Page Application (SPA) e-commerce storefront featuring dynamic product catalog rendering, multi-category filtering, and structured product cards.
- Implemented client-side shopping cart state management using React Hooks (useState, useEffect) to calculate dynamic item counts and subtotal amounts in real time.
- Built interactive custom candle selection workflows and designed accessible contact forms with client-side input validation and dynamic visual feedback.
- Ensured cross-device responsiveness across mobile, tablet, and desktop screens using Material UI Grid and Flexbox layouts.

Personal Portfolio Website **Live: nanthini-portfolio.vercel.app**
Technologies: React.js, Material UI, React Router (v6), Framer Motion, Responsive UI, Vite Code: github.com/nanthini23k

- Designed and deployed a modern developer portfolio showcasing technical skill sets, featured projects, and contact channels.
- Implemented client-side routing using React Router (v6) for seamless multi-view navigation without page reloads.
- Integrated fluid UI animations using Framer Motion and applied mobile-first styling principles for consistent cross-browser performance across all screen sizes.

EDUCATION & SPECIALIZED TRAINING

Specialized Training in Frontend Web Development (React.js) **Apr 2026 – Sep 2026**
GreenApple Computer Education, Mayiladuthurai

Bachelor of Engineering (B.E.) in Computer Science and Engineering **2013 – 2017**
Arasu Engineering College, Anna University, Kumbakonam Cumulative Grade Point Average (CGPA): 7.4 / 10

ADDITIONAL PROFESSIONAL EXPERIENCE

Quality Assurance Team – Documentation **Jan 2021 – Jan 2022**
ACENT CIRCUITS Private Limited | Hosur, Tamil Nadu

- Managed quality compliance records, production inspection files, and technical standard operating procedures (SOPs).
- Performed rigorous documentation audits to verify manufacturing specifications and resolve process discrepancies across operations.
- Collaborated with engineering teams to record technical observations accurately and maintain complete data integrity.

Business Support Executive **Feb 2018 – Dec 2019**
DVARA Financial Private Limited | Thanjavur, Tamil Nadu

- Coordinated core operational data records, verified customer documentation, and maintained database integrity in digital systems.
